ENDURANCE TEST REPORT IG7 DAKOTA

Long-life Durability Test parameters

Test condition:

- Feeding with dry and filtered air
- Nozzle -2 mm diameter
- Inlet pressure @ 1 bar
- 25°C ambient and intake temperature
- 62.5 Hz frequency
- Activation time 3 ms
- ECU supply voltage @ 14 Volt
- The injector stands up to **1,000,000,000** cycles

Deviation from starting to after test:

- Stroke: $\pm 10\%$
- Dynamic and Static Flow $\pm 8\%$
